

Talk to Your Doctor Icebreaker

The important thing about discussing VIAGRA with your doctor is to be open, honest, and to stick to the facts - let your physician figure out whether or not VIAGRA is right for you.

Here are some good conversation starters:

- ◆ "Doctor, I want some information about VIAGRA."
- ◆ "Doctor, tell me about VIAGRA"
- ◆ "Doctor, I've heard a lot about VIAGRA and would like to talk to you about it."

Other things you might want to talk to your doctor about?
Write them down here:

And remember, the only safe way to get real VIAGRA is with a prescription from your doctor.
